

Brasenose College

Staff Children Safety Policy

All Members of College, Academic and Non-Academic Staff are very welcome to bring their families and children into college. Brasenose is an open and inclusive community, and the presence of children can be positive addition to the college's atmosphere. Visiting college can also be a useful way to help children understand their parents' job.

If bringing children into college, it is important to remember that

- The college is not designed for children (especially under 16s) and so special care is needed on stairwells and near glazing.
- The parent/guardian remains responsible for their child(ren) at all times, and should ensure that the child(ren) remain(s) safe and avoid(s) hazard.
- Children and young people must never be allowed to enter areas in which high risk activities are being undertaken (kitchens, maintenance workshop, cleaning cupboards and boiler rooms)

We all want Brasenose to be family friendly, but safety should never be compromised.
